

A close-up, artistic photograph of a hand pouring whisky from a clear glass bottle into a glass. The scene is set on a dark, textured surface, possibly a table. In the background, another bottle of whisky is visible, slightly out of focus. The lighting is warm and dramatic, highlighting the golden color of the liquid and the textures of the glass and the hand. The overall mood is sophisticated and elegant.

Introducing

of innovative designs
inspired by antique bottles

Inspired by bottle types from the early-to-mid 1800s, the VINTAGE FORWARD collection offers an innovative take on venerable old designs and can accommodate a wide assortment of spirits and beverages. Our forward take on these vintage designs incorporates a sophisticated yet simplified look, along with lightweight compositions.

THE DRUGGIST

Inspired by the flat, flask-like medicinal bottles that were popular among druggists, now called pharmacists, at the turn of the century, THE DRUGGIST offers wide, flat panels that serve as a big canvas for branding and art.

THE MALLET

Derived from the herbal benedictine and squat 'onion' bottles that were popular in the early 1800s, THE MALLET offers an elegantly simple profile that stands apart. Aside from looking like the handle of a traditional carver's mallet, the long neck is also an easy grab for busy mixologists.

THE TORPEDO

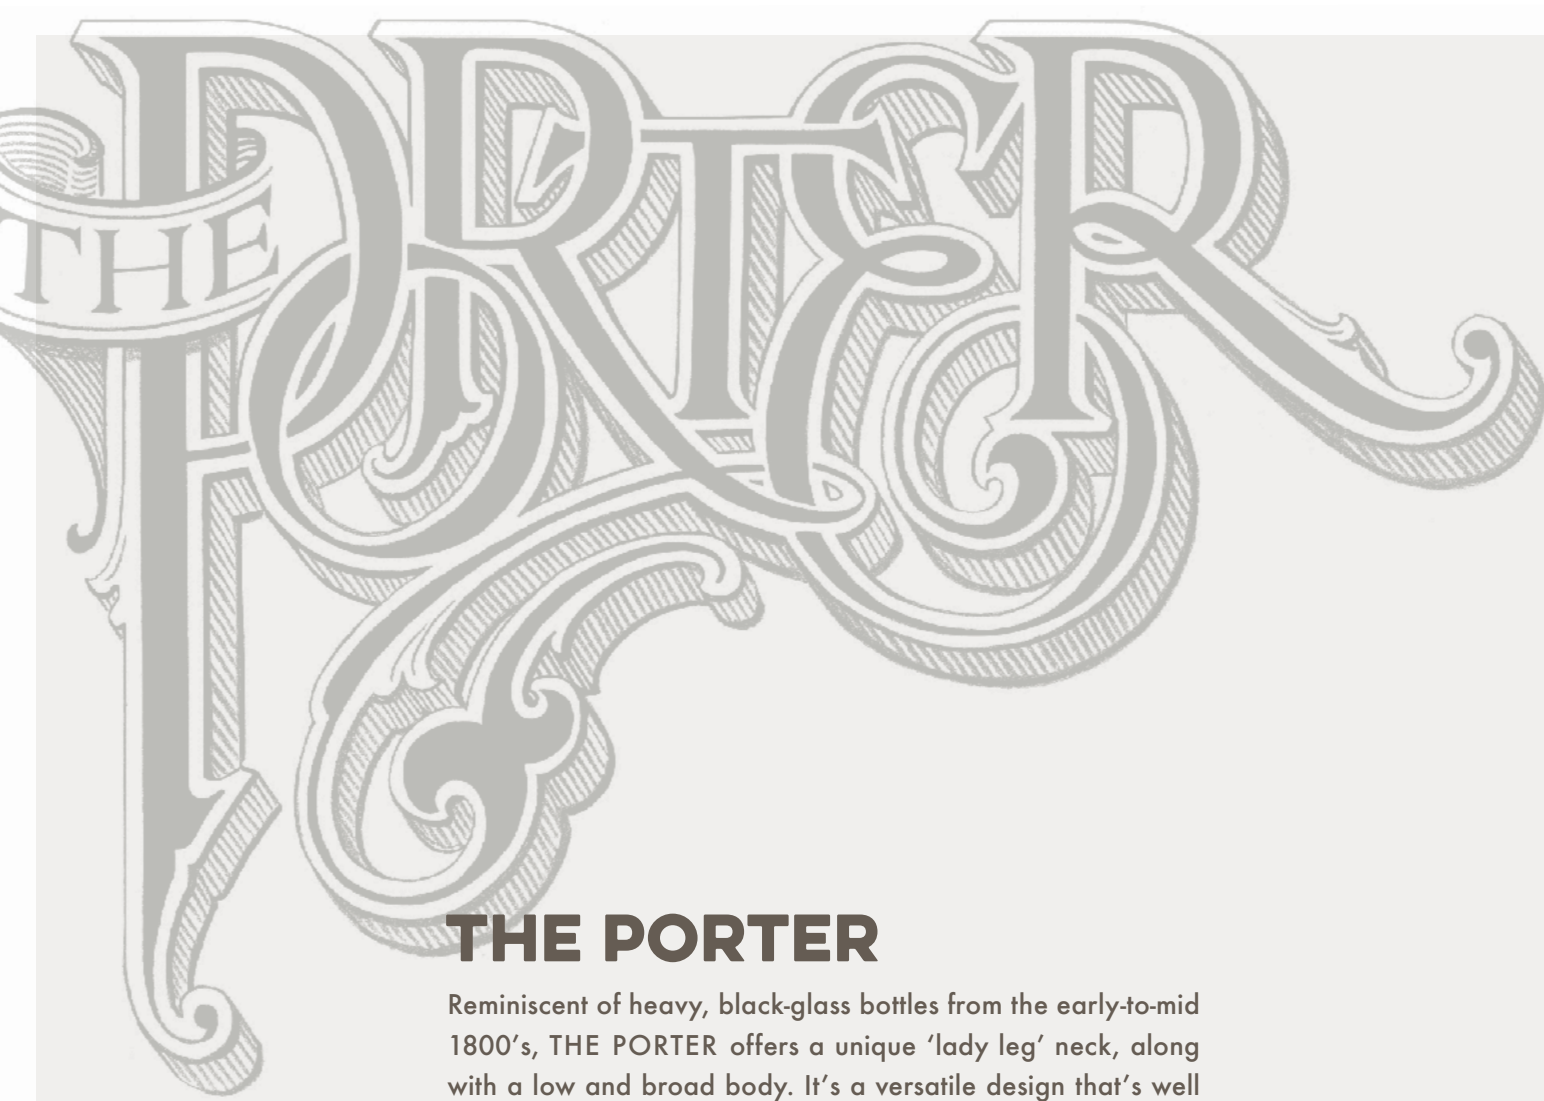

THE TORPEDO's tubular design is inspired by round-bottom bottles from the middle of the 19th century, which were designed to lay on their side in transport and storage. Bold, simple and tall, this standout design works well for many spirits.

THE PORTER

Reminiscent of heavy, black-glass bottles from the early-to-mid 1800's, THE PORTER offers a unique 'lady leg' neck, along with a low and broad body. It's a versatile design that's well suited for a variety of spirits, including whiskies, ports, brandies and wine.

FLEXIBILITY THAT FITS YOUR BRAND.

With its suite of similar-yet-different bottles, VINTAGE FORWARD offers a cohesive look for brands that have a portfolio of different spirits. This modularity has multiple benefits. For example, if a brand wants to launch a quick-to-market spirit like gin or vodka while waiting for its whiskey to age, VINTAGE FORWARD allows you to have a unifying look without worrying about finding a complementary bottle for your whiskey later.

LESS WEIGHT. LOTS OF BENEFITS.

The 'FORWARD' in the collection's name is a nod to its evolved design features, as well as its ecological and economic sustainability. VINTAGE FORWARD bottles are available in your choice of two different glass types: INFINITE WAY™ 100% recycled glass or Extra Flint made with renewable sources. Either one offers a smart path forward for brands that want to align with a more renewable economy.
