SUSTAINABLE FROM CONCEPTION

Embrace Imperfections reducing wasted production.

Aesthetic imperfections and slight color variations between them do not pose a problem, on the contrary, they are more than welcome. We love them and they help us reducing wasted production up to 25 %.

Sustainability, based on own innovation.

We have rewritten the paradigms of industrial milling, created new methods and patented new procedures that allow us a degree of flexibility and efficiency unthinkable until today.

Up to 100% Post Consumer Recycled glass content.

We work only with industrial furnaces with the highest percentage of PCR (Post Consumer Recycled) glass on the market. Wildly Crafted bottles accept all types of recovered glass.

FINALLY, A CRAFT BOTTLE BEFITTING A CRAFT WINE

At a time when technology is changing our consumption patterns, handcrafted products are experiencing a comeback and consumers are choosing to go back to the origins in need of authenticity and honest products. Perfection is a soulless characteristic of industrial super-automation.

Hard and Original

MARIN

The true essence of a Burgundy bottle, with low and rounded shoulders that puts all the weight in the lower half of the product.

Unlike other bottles, in the Wildly Crafted Wines Collection, the Marin is fully texturized top to bottom, to complement typically larger labels that tend to cover more of the bottle.

Strong Spirit

SIROCO

An ideal bottle for fortified and contemporary wines with a strong spirit.

A silhouette close to spirit bottles makes Siroco a leading edge in the world of wine.

W: 540 g / H: 310 mm / Ø 79 mm

Straight & Angular

OROSHI

The most contemporary of our Wildly Crafted Wine bottles. Straight and angled, with slightly asymmetrical shoulders, it looks different depending on the observer's point of view.

W: 540 g / H: 305 mm / Ø 79,3 mm

BUSTER

A hard and rocky bottle, low and very wide, it has no qualms about proposing a bold and honest vision of wine.

INDUSTRIALLY STANDARD BUT ALWAYS DIFFERENT

Personalizing engraving options.

Even with the textures, we offer the possibility to personalize the bottle with an engraving text in the lower labelable area. Using your brand or engraving the principal value that defines your wine (ORGANIC, ECOLOGIC, ARTISANAL, HANDCRAFTED...).
